

CESM Climate Variability Working Group Session
Wednesday, 30 June 2010
Great Divide Lodge – Centennial Room – Breckenridge, Colorado

Webcast Instructions and Information: <http://www.cesm.ucar.edu/events/webcasts/>

- 8:30 a.m. Grant Branstator – NCAR
Decadal predictability Limits for CCSM3 and CCSM4
- 8:50 a.m. Cecilia Bitz – University of Washington
Seasonal to Interannual Predictability of Arctic Climate
- 9:10 a.m. Michael Alexander – NOAA
Tropical – Extratropical Interactions in the Pacific
- 9:30 a.m. Julia Cole – University of Arizona
Paleorecords of Recent Trends and Variability in Tropical Pacific
- 9:50 a.m. Amy Clement – University of Miami
Rethinking the Ocean’s Role in the Southern Oscillation
- 10:20 a.m. CVWG Business Update – Working Group Co-chairs
- 10:30 a.m. Break*
- 11:00 a.m. Jian Lu – COLA
The Role of the Ocean Dynamical Feedback in the Climate Response to GHG Warming
- 11:20 a.m. Ed Schneider – COLA
How Weather Impacts the Forced Climate Response
- 11:40 a.m. Bruce Anderson – Boston University
On the Radiative Quasi-equilibrium between SST and Anthropogenic Climate Forcing
- 12:00 p.m. Adjourn
